OTHER PERTINENT INFORMATION:

1. The California State Lands Commission (Commission) previously approved the issuance of a General Lease – Public Agency Use to the City of Los Angeles, Department of Water and Power (City), for the installation, operation and maintenance of the North Sand Sheet Shallow Flooding Project at Owens Lake.
2. The City and the California Department of Water Resources (Department) have entered into an agreement whereby the City and Department will operate and maintain an existing computerized weather station that is located within the North Sand Sheet Shallow Flooding Project area. The weather station will collect information necessary for estimating crop water use under local conditions and is an essential part of the CIMIS. The CIMIS is a project of the Department, which provides irrigation management to California growers and irrigation water managers.
3. A Mitigated Negative Declaration was prepared and adopted for this project by the City of Los Angeles, Department of Water and Power. The Commission's staff has reviewed such document.
4. A Mitigation Monitoring Program was adopted by the City of Los Angeles, Department of Water and Power.
5. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code sections 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
